REDS DOMINATE COAL DISTRICT

The Tribune scribe, in conversation with a party who has just returned from Blairmore, was given some first hand information regarding the seriousness of the coal mine situation throughout the Crow.

Our informant says he was in Blairmore last Monday when the strikers were being harrassed by the rebs and witnessed the efforts made by the Mounted Police to avert trouble, in which two of the officers were badly handled and later taken to the hospital for treatment. Two men and two women were arrested and jailed over the protests of the strikers.

According to our informant, there are about 200 Mounted Police on the job, besides numerous secret operatives mingling with the strikers. Three hundred Communists were turned back last Saturday while on their way to participate in the Monday demonstration at Blairmore. Of the 1500 miners on strike, about 75 per cent are foreign, who are either Communists by nature, inclination and preference, and are easily led. Those miners who are disposed to work are being coerced into submission and have little to say. Several who have attempted to work have been beaten and their homes partially destroyed.

This information coincides with other private advices and we believe it to be authentic, although the newspapers have had little to say regarding the actual conditions existing and the coercive measures practiced by the red element.

That the coal mining regions are in possession of Communists, there is no doubt, and there is only a remote possibility of an amicable settlement until red agitators are rounded up and taken away.

The large number of Communists which have so suddenly appeared in the coal fields, is evidence that they are more plentiful in Canada than suspected by the average citizen. While it has been generally rumored that the government was dealing with the rebs in several sections, and several hands have been raided and jailed, such rapid growth of the Communist party in Canada was not anticipated. — Cranbrook Tribune.

[The above, while purported to be facts, is far from the truth in many instances].

NEW STEP FORWARD

"Palmy Days" seems a logical step forward in pictures from Goldwyn's "Whoopie." That brightly colored festival of fun, music, song, dance and Eddie Cantor more or less served as the last and greatest of the old order of screen musical comedies, owing most of its style to the legitimate stage.

The new Cantor film "Palmy Days," showing at Cole's theatre, Bellevue, for the balance of the week, strikes out a new field for itself—one that is certainly to be made large as a new vogue in screen entertainment. For Goldwyn's underlined, eye-filling beauties go through their thrilling dances only when a dance seems to have some rhyme or reason in the story—in a gymnasium, for instance, or at a moonlight party. And Con Conrad's tuneful songs are heard not to punctuate or stop the story, but as a part of it. The songs and dances become woven into the plot.

Necessity for changing the registration of an automobile as soon as it is sold was impressed on motorists at Montreal, when Chief Justice R. A. E. Greenhalgh condemned a prior owner of a car involved in an accident to pay \$15,000 jointly and severally with the real owner of the vehicle who was driving it at the time of the accident. The judgment was considered of extreme importance to all car owners and dealers.

PASS ENTRANTS SUCCESSFUL AT LETHBRIDGE

Paraska, second daughter of Mr. and Mrs. T. Gushul, won second place in primary violin at the Lethbridge musical festival, securing eighty-four marks. First place was taken by Lawrence Fisher, of Hillcrest, with eighty-five. In vocal Grades III and IV, Juanita A. Cranston, of Bellevue, won second place with 86 marks. In junior violin, George Kerr, of Blairmore, came second, with 164 points. Brenda Cross, of Hillcrest, won first in girls' solo, with 85 marks, and James Marshall, of Hillcrest, first in senior violin. In intermediate violin, Jean Cruickshank, of Hillcrest, was awarded second place with 108 marks, only one point behind her competitor. Speaking of Jean's accomplishment, Adj. director Jacobson said: "Jean Cruickshank has more natural ability and much temperament, he said, which gave a splendid urge to her playing, but her work needs refining. The tone was not always good. But this player shows much promise, has talent and style. There is such a thing, Mr. Jacobson said, as an inborn violinist, but by dint of work a player with less of the quality has been able to surpass the one with natural ability." Of Brenda Cross he said: "This was the best quality of voice heard in the festival up to this time. It was really lovely. Mr. Jacobson said, and surprisingly mature, but not enough feeling of voice production. It lacked variety, in color and rhythm did not flow quite enough, but the performance was of great beauty and it showed the aliveness of the spirit of the singer. "A happy, vital, enjoyable performance" were the words used by Mr. Jacobson in describing the Hillcrest string orchestra, from Hillcrest, directed by Mr. W. H. Moser, when they opened the evening session at Wesley church on Thursday night. The pleasure they gave by their playing justified their appearance. "Music in most atmospheric phases must have nucleus of vitality," Mr. Jacobson said, "and this was the outstanding and pleasing possession of the Hillcrest orchestra." Much constructive criticism was given this entry by the adjudicator suggesting to them a bigger tonal range, wider color scope and crisper rhythmic definition. This is all that is needed to make them excellent, he said; 87 marks were received. "They are a splendid body, splendidly directed and all co-operating," Mr. Jacobson said.

The first honor marks of the festival were won by James Marshall, Hillcrest, in the senior violin class, when he obtained 90. This was the highest standard solo performance heard. It was technically faultless and Mr. Jacobson said he paid him the highest compliment he could, as he didn't write any adjudication until the performance was completed. Other competitors in this class were Clifford Palmer, of Lethbridge, and Roy Upton, of Blairmore, who were awarded respectively 86 and 85. Mr. Jacobson said that all three were competitors of whom to be proud.

Mrs. D. Thomas, of Hillcrest, who topped the open vocal list in Blairmore, also won honors at the Lethbridge festival, being awarded 91 marks for her rendition of a solo hit own selection.

Laura Freebairn, of Pincher Creek, came first in student-teacher violin class, being awarded 87 marks for her splendid rendition.

Commenting upon the efforts of Beatrice Trono and Dorothy Olivier, Mr. Jacobson had the following to say: "Miss Trono had a beautiful atmosphere and gave a good and practical performance." She played "Clare de Lune," Dorothy Olivier, also of Blairmore, who played "Libertraine," gave a "musical and emotional performance. She has good temperament." Beatrice secured 86 marks in second place. Dorothy tied for third place with Sterndale Bennett, of Lethbridge, being awarded 85 marks.

When

TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bewilderment of carrying out waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—it is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name!

An impressive military funeral was held at Ottawa when Inspector Alfred H. Joy, of the Royal Canadian Mounted Police, was buried. He was to have been married the day following his death.

Proves London Doctor Wrong

Someone Estimates Body's Material Worth More Than Dollar

A London doctor says our bodies are worth less than \$1 each for the materials they contain. We could fill a 10-gallon tank with the water in our bodies, make seven bars of soap with the fat, rid one dog of fleas with the sulphur, make a medium-sized nail with the iron, make 2,000 match heads with the phosphorus, make 9,000 lead pencils with the carbon, provided we could extract it. We could produce a dose of salts with the magnesium we contain, and could whittle a chicken-coop with our own lime—again provided we could extract it.

W. M. U. 1941

Bacon and Ham Exports

Canada Is Now Recapturing Large Share of British Market

That Canada is rapidly moving forward toward the recapturing of her share in the British market for bacon and ham is indicated by the statistics of export of these commodities to Great Britain for the first quarter of the present calendar year, in the opinion of Hon. H. H. Stevens. During the three months the total exportation to Great Britain amounted to \$6,480,000 lbs. as compared with 15,821,000 lbs. for the corresponding period last year or an increase of 40,689,000 lbs. The percentage increase is therefore approximately 257 per cent.

"In addition, it is interesting to note," a statement issued by the Minister of Trade and Commerce, says, "that during the month of February and March, Canada's export of bacon for the first time to the Irish Free State 13,342,000 lbs. of bacon and ham. And the Irish Free State has in the past, been regarded (with Denmark), as a serious competitor with Canada in the British market for these particular products."

Total exports of bacon and ham to all countries, for the first quarter year amounted to 77,526,000 lbs. as compared with only 20,052,000 lbs. in the first three months of 1931, an increase of nearly 400 per cent.

To Great Britain alone during the first three months of 1932, Canada exported more bacon and ham than were exported during the entire 12 months of 1928. During the latter year less than nine per cent. of Britain's imports of bacon were supplied from within the Empire and only 14 per cent. of the ham.

Efforts on the part of the department of trade and commerce, through exhibitions and publicity in Great Britain designed to popularize Canadian products, including bacon and ham, coupled with educational efforts on the part of the department of agriculture to show to the farmer that standard of quality and consistency of supply are prime requisites in securing and retaining the British market, are regarded by the minister as being largely responsible for the success of the British demand for Canadian hog products. "The measure of success that has been achieved through advertised quality, says the minister, is apparently now being achieved in the production field."

Low Ocean Fares

Britain Preparing For Greater Invasion Of Tourists From Canada Than Ever Before

Britain is preparing for a greater invasion of tourists from Canada and the United States than ever before, this season. This is due to more determined efforts on the part of the Travel Association of Great Britain and Ireland, who have highly organized their resources for welcoming visitors to the Old Land.

Recent ocean rate reductions to the extent of 20 per cent. have now made it possible to spend a summer holiday by going to Europe, doing what's best sight-seeing in the time available, and returning to this country for an all-inclusive charge of less than seven dollars a day, according to the Cunard and Anchor-Donalson lines.

These tours in Europe include the best sight-seeing in the time available, chiefly by motor coach, as well as by rail and steamer. These tours also include visits to the Continent, in France and Belgium especially.

"Modern Third Class" is used for the ocean crossing and to many people whose memories of Third Class date back to many years ago when they first came to Canada, this class offers surprising comfort. Nowadays, in fact, third class is more comfortable than first class was thirty or forty years ago.

Ontario and Quebec provinces expect to reap some benefit from the mass of tourists who pass through Montreal on their way to Europe, as many western Canada and United States visitors spend some time seeking Ottawa, Toronto and Montreal, en route.

Aeroplane Patrol

Royal Canadian Mounted Police Will Use Planes On Both East and West Coasts

Aeroplane is to be used by the Royal Canadian Mounted Police for preventive work on both Atlantic and Pacific coasts. Major-General J. H. MacBrien, commissioner of the R.C.M.P., announced that arrangements had been made to employ a considerable number of planes of the Royal Canadian Air Force.

The aircraft will operate in conjunction with vessels of the preventive service, and will be stationed at strategic points on both coasts.

The forests of Quebec cover an area of more than 155,000,000 acres according to recent estimates.

Bidding For Tourist Trade

Canada Has Competition From Other Countries and Should Advertise

The French, Germans, Cubans, Italians, Swiss and a dozen other people are actively engaged in competing for the American tourist trade. This year steamship fares have been reduced to so low a level that Canada must face competition from tourist resorts across the Atlantic. Then why not make a virtue of the Atlantic shipping fares, and attract more tourists to Canada from Europe this summer? Canada needs the tourists and their shipping companies need the passengers.

What Is Fano

What is fano? Upon the walls of the corridor leading to the Parliamentary restaurant at Ottawa, there are etchings of all the Prime Ministers of Great Britain. The other day, when two American visitors were walking down this corridor, one of them stopped, pointed his cane at the etching of Disraeli, and knowingly remarked: "Ah, George Arliss."

Tree Planting Car

Canadian Forestry Association Carrying On Good Work in the West

The Tree Planting Car of the Canadian Forestry Association which will commence its fourteenth year of spreading the gospel of tree planting on the prairies left Montreal after a thorough overhauling in the Canadian Pacific Railway shops at that point, on April 25 for Ottawa. At Ottawa it will be equipped, and then sent on to Regina, where Alan B. Beaven will take charge. The season of lectures on tree planting will open this month.

Mr. Beaven, who has been seven years with the forestry car, has prepared a real entertaining programme for the farmers, their wives, and children who attend, and is hoping that a new record in the number visiting the car will be established.

With drought conditions in the southern prairies during the past three years, the publicity that has been given the necessity of planting shelter belts and windbreaks, and the belief expressed that trees can and will play an important part, farmers have come to look on the problem of a treeless plain as one needing immediate action. They have learned from the experience of neighbors that effective farming and tree planting on the prairies go hand in hand, and so efforts have been successful this year in bringing the gospel of tree planting to the people of the province.

The first two months of the tour will be spent in Saskatchewan, and the summer of the car will travel through Alberta.

Recipes For This Week

(By Betty Baralay)

COFFEE GINGER COOKIES

1 cup strong, hot coffee.
1 cup molasses.
1 cup brown sugar.
1 cup shortening.
1 tablespoon boiling water.
1 tablespoon ginger.
1 tablespoon cinnamon.
Flour for mixing.
1 teaspoon soda.

Dissolve soda in boiling water and stir into molasses. Pour over the shortening. Add boiling coffee and sugar, and then add seasonings. Flour until dough is stiff enough to roll. Roll out and cut desired shapes.

ORANGE CANDIED SWEET POTATOES

(Serves 6)
1 cup orange juice.
1/4 teaspoon ground orange rind.
1 cup water.
1/2 cup sugar.
3 tablespoons light corn syrup.
1/4 teaspoon salt.
1/2 cup butter.

8 sweet potatoes or yams.
Combine first seven ingredients and pour over peeled uncooked sweet potatoes arranged in casserole or baking dish. Bake covered in a moderate oven (375 to 400 degrees Fahrenheit) until tender, 50 to 60 minutes. Bake occasionally. Remove lid last 10 minutes to brown or put under broiler.

VARIATION: Just before removing from oven, add a layer of marshmallows and brown.

Scientist Honored

Director Of Geological Survey Elected As Member Of American Philosophical Society

Election of Dr. W. Collins, director of the geological survey, Department of Mines, Ottawa, to the American Philosophical Society, oldest scientific society in the western hemisphere, was announced at Ottawa. As membership is restricted to outstanding scholars and statesmen who have distinguished themselves by their contributions to the realm of useful knowledge, the honor conferred on Dr. Collins is regarded as a particularly enviable one.

Dr. Collins has had a brilliant career as a geologist. In 1929 he represented the Dominion Government at the International Geological Congress held in South Africa.

A Missouri editor prefers a cow to a telephone, because in addition to making the same noise the cow gives milk.

So large is the collection of cups and trophies owned by the late Sir Thomas Lipton that it will require two months to prepare them for exhibition in the Art Galleries at Kensington, Scotland.

SUNDAY SCHOOL LESSON

MAY 28

JACOB AT BETHEL

Golden Text: "I am with thee and will bless thee whithersoever thou goest."—Genesis 28:15.
Lesson: Genesis 27:28.
Devotional Reading: Psalm 139:12.

Explanations and Comments

Jacob's Dream, verses 10-15. Jacob was fleeing from Esau's wrath; he was going toward Haran when, quite by accident it would seem to open the expression "He lighted upon a certain place," he came to the hillside near Bethel and there in a dream he had his vision of God.

"God pity the boy who leaves home and does not carry with him some kind of pointing finger that shows the way to God, some memento, some imagination, that lead him to the place where God may be seen."

Ralph Connor.
Needing something for a pillow he could find nothing better at hand than one of the stones on the hillside. When Bishop Taylor returned to this country he had no use for soft pillows and more than once substituted a bundle of books.

The sun hung low in the sky as Jacob approached Bethel, and his last vision of the falling asleep had been the hills around him, of limestone rock in strata that rise above the other. He dreamed, and naturally dreamed of a flight of stone steps, or ladder, reaching to heaven. The ladder symbolized the thought that there is communication between heaven and earth, between God and man.

"The Spirit of God always conveys His teaching to his servants in language borrowed from their surroundings. The summer of Revelation in full of reminiscences of the Aeneas, which sometimes murmured around the cliffs of his prison life as a sea of glass bathed in fire, and at other times broke on them in yeasty foam. David's Psalms make constant reference to the wild hill country of Judea, in which so many of them were composed."—B. R. Meyer.

"It is melancholy to hear of Bethel in the dim, far past if we are to conclude that that ladder between the soul and God has been pulled up, or pulled down, and that direct divine intercourse has ceased."—Rufus M. Jones.

"Heaven is not far from the earth. Even in the bleak and barren stretches of our life, where we feel lonely and desolate, there may come to us experiences which so cheer and assure us that they are like very angels from above, and which carry us up from the depths of our desolation to the very gates of heaven."—J. E. McFadyen.

On Jacob's dream ladder the angels and men descend and ascend, symbolizing the thought that there is communication between God and man. Before Jacob knew that God is now he learned that God was accessible. When he was living at home, where his life was made comfortable by the favoritism of Rebekah, his mother, there was no room in his soul for the thought of God. When alone on the rocky hillside, with no one to help him, God found him susceptible to divine influence. Providence often thus prepares the way for revelation.

And then in Jacob's dream Jehovah appeared beside him and spoke words of encouragement and hope. So was the story of Jacob's life. He was lying in his dream, and so were the words of his father Isaac in that parting blessing: "God Almighty bless thee, and give thee the blessing of Abraham . . . that thou mayest inherit the land of thy journeyings which I gave unto Abraham," verses 3, 4. He heard God promise that he should inherit the land that his descendants should have "as the dust of the earth" in number, and in him and in them "all the families of the earth should be blessed."

And then God added the assurance of His companionship and guidance: "And should I am with thee and will keep thee whithersoever thou goest."

"The God of Bethel" has become a phrase for God's over-watchful care.

Do we think of God as the Commander of our ways, as with us in all the trials of our life? Has the thought of the nearness of the presence of God been a working power in our lives? In peace will I both lay me down and sleep; for Thou, Jehovah, alone makest me to dwell in safety. Psalm 4:8.

Probably Correct

Theological Lecturer: "Yes, my friends, some admire Moses, who inherited the Old Law; some Paul, who spread the New Law; after all, what character in the Bible has had the largest following?"
Voice from Rear: "Ananias."

Willing To Make Deal

She (concluding the quarrel, haughtily): I suppose you would like your ring back?
He (politely): I would rather— unless you can and somebody quickly to take over the remaining instalments.

Certain Is Right

Friend, say, here's a bunch of people outside waiting to be presented to you. Among them is a bishop who says he married you some time ago.

Film Actress: Gee! I'm practically certain I never married a bishop.

So large is the collection of cups and trophies owned by the late Sir Thomas Lipton that it will require two months to prepare them for exhibition in the Art Galleries at Kensington, Scotland.

"DON'T BE ROBBED OF YOUTH!"

SAYS RALPH GRAVES

"Here in Hollywood," Ralph Graves, scenario writer, says, "women don't use birth-days as an excuse for growing old. They seem to know the secret of becoming more and more alluring year after year."

"The screen and stage stars usually keep that lovely iridescent glow that youngsters have. And lots of other things, these days, seem to have turned their complexion secret!"

"Above all, guard complexion beauty—the stars will advise you. 'Use gentle, soothing Lux Toilet Soap regularly as we do!'"

Across the world over us fragrant, delicately white Lux Toilet Soap to keep their complexions always exquisite. In Hollywood, where 688 of the 694 important actresses are devoted to it, this fine soap is official in all the great film studios.

You are sure to love the way it cares for your skin! The famous French soap for just 10c!

MAISON MARTIN M. G. M. Star

Flood Sufferers In China Are Starving

Matter Brought Before League Of Nations Manchurian Commission

News of how 6,000,000 Chinese flood sufferers in the Hwai River Valley north of Anhwei are existing chiefly on grass and bark, while some are being sold in a human market, was brought to the attention of the League of Nations' Manchurian Commission at Peking.

The affected area was estimated at twice the size of New York State.

The chief supply of food has been relief wheat from the United States. But owing to the trouble at Shanghai between the Chinese and Japanese, and unfavorable transportation conditions only 4,000 tons of wheat thus far have reached the Hwai Valley.

Shawna Peet Chuann, superintendent of the National Flood Relief Commission for the North Anhwei area.

It will be late in June before the wheat crop will have matured and the problem is to feed the starving millions, while the authorities do everything possible to improve transportation. Meanwhile, the refugees have been eating grass, weeds, sprouts and the bark of trees.

Relief workers reported to Chuann that the market price for the sale of humans is \$1 in Chinese money, or about twenty cents in American, for each year of the person's age. A ten-year-old child sells for \$10 or about \$2 in gold, the rate rising \$1 a year until the age of 25, when the price begins to recede.

Soap Used Without Water

A waterless soap has been developed by a chemist attached to a joint concern in Kansas City. The soap, in the form of a paste, is said to be harmless to the skin and even possesses healing and antiseptic qualities. It lathers freely without water and absorbs all dirt.

How Earth Is Divided

Scientists estimate that 40 per cent. of the land area of the earth is desert, 30 per cent. is productive, and 30 per cent. is poor grazing land, forest, high mountains and waste. There is no agreement as to the exact portion that is inhabitable.

Argentina has only about 7,000 plants using steam for power.

Porto Rico imported \$1,000,000 worth of jute bags in 1931.

THE HOUSE OF
DREAMS-COME-TRUE

BY
MARGARET FEEDER
Author of
"The Splendid Folly," "The Hermit
of Par," "The Riddle of the
Hodder & Stoughton, Ltd., London.

CHAPTER XX—Continued.

She paused, and the liquid in the black pot over the fire dashed up suddenly and filled the silence with its chuckling and gurgling, so that to Jean it seemed like the sound of some hidden malevolence chortling defiance at her.

The old woman clutched her hand a little tighter, turning the palm so that the light from the tiny window fell more directly upon it.

"There's a castle waltz for 'ee, me dear," she resumed in the same stinging voice as before. "I can see it so plain as plain. But you won't never live there 'til the one you love, though you're hopin' to. I see ruin and devastation all around it, and the sky as red as blood above it."

She released Jean's hand slowly and her curiously bright eyes fastened upon Tormalin.

There is
NO ODOR
from FISH

or from
Vegetables cooked
in CANAPAR

Boiled, or steamed, fish comes out firm and solid, swimming in its own juice, when you seal it up in Canapar Cookery Parchment. No fishy odor. No gummy steamer or saucepan to clean out afterwards.

And vegetables are simply delicious. Using Canapar you can cook three at once in the same pot over one burner turned low. Canapar acts on them as it does on fish. Retains all the mineral salts and flavor. Fat and juices from meat won't burn if you line your roasting pan with Canapar. No pan-scraping after-ward.

Canapar only costs 25 cents for a large envelope. You can use each sheet repeatedly because it won't absorb odors. Makes a perfect dish cloth because it is silky, strong, and doesn't spread lint.

Special Offer

CANAPAR is made by the makers of the famous FARASANT Heavy Waxed Paper in the Green Box. Most grocers, druggists and department stores have Canapar on sale, but if yours hasn't send coupon direct to the makers and we'll give you a new and unique book entitled "Leflovers", containing one hundred recipes as a bonus for your trouble.

looked at Burke now, in astonishment.

"You certainly are not," she replied quickly. "I shall go back as I came—in the car."

"Quite impossible. It's broken down: They rashly brought on the lurch hampers in it, across that God-forsaken bit of moor-road—with disastrous consequences to the car's internal. So that you and Tormalin have got to be seated in other conveyances. And I've undertaken to get you home."

Jean's face fell a little. Throughout the drive-up to the Moor Blaise had seemed less remote and more like his old self than at any other time since their quarrel, and she could guess that this arrangement of Burke's was hardly likely to conduce towards the continuance of the new peace.

"How will Blaise get home?" she asked.

"They can squeeze him into her car, Judy says. It'll be a tight fit, but he can cling on by his eyelashes somehow."

"I think it would be a better arrangement if you drove Blaise and I. There's certainly room for two extra in the car. There isn't really room for one."

"There wouldn't be two. You would drive Blaise."

"Pardon me. I should do nothing of the sort."

"Do you mean?—incredulously—"that you would refuse?"

"No, no," she said, attempting to speak lightly. "This lady's fortune isn't sufficiently encouraging for me to venture."

The girl's eyes never left his face. She nodded slowly.

"That's as may be. For the zalm luck and zalm ill-luck will come to you as comes to thikke maid. There's no ring given or taken, but you'll burn together so fast and firm as wedding-ring could bind 'ee."

Jean felt her face flame scarlet in the dusk of the tiny room, and she turned and made her way hastily out into the sunshine once more, thankful for the eager question of Nick and Claire, which served to bring back to normal the rather strained atmosphere induced by the girl's final comment.

As they climbed the side of the tor once more, Jean relapsed into silence. More than once, more than twice, since she had come to England, she had been vaguely conscious of some hidden menace to her happiness, and now the girl had suddenly given words to her own indefinite premonition of evil.

"For there's darkness comin'... black darkness."

It was a relief to join the rest of the picnic party, who were clamouring loudly for their lunch, good-humouredly indignant with the wanderers for keeping them waiting.

"Another five minutes," announced Burke, and we should have begun without you. Not even Lady Anne could have kept us under restraint a moment longer."

The party was quite a large one, augmented by a good many friends from round about the neighborhood, and amid the riotous fun and ridiculous mishaps which almost invariably accompany an all-weather picnic, Jean contrived to throw off the feeling of oppression generated by Keturah's prophecy.

Burke, having heaped her plate with lobster mayonnaise, established himself beside her and proceeded to catechise her about her recent experience.

"Did the lady—what's her name, Keturah?—tell you when you were going to marry me?" he demanded in an undertone, his dare-devil eyes laughing down at her impudently.

"No, she did not. She only foresees things that are really going to happen," retorted Jean.

"Well, that is—compounded. 'She can't be much good at her job if she missed seeing it.'"

"Well," Jean affected to consider—"the nearest she got to it was that she saw 'darkness coming'."

Under cover of the general preoccupation in lunch and conversation, Burke's hand closed suddenly over hers.

"You little devil!" he said, half amused, half sulky. "I'll make you pay for that."

But out here, in the wind-swept, open spaces of the Moor, Jean felt no fear of him.

"First catch your hare—" she retorted defiantly.

He regarded her tensely for a moment.

"I'll take your advice," he said briefly. Then he added: "Did you know that I'm driving you back in my car this afternoon?"

Various cars and traps and saddle horses had brought the party together at the appointed rendezvous—a little village on the outskirts of the Moor, and Jean had driven up with Blaise in one of the Staple cars. She

looked at Burke now, in astonishment.

"You certainly are not," she replied quickly. "I shall go back as I came—in the car."

"Quite impossible. It's broken down: They rashly brought on the lurch hampers in it, across that God-forsaken bit of moor-road—with disastrous consequences to the car's internal. So that you and Tormalin have got to be seated in other conveyances. And I've undertaken to get you home."

Jean's face fell a little. Throughout the drive-up to the Moor Blaise had seemed less remote and more like his old self than at any other time since their quarrel, and she could guess that this arrangement of Burke's was hardly likely to conduce towards the continuance of the new peace.

"How will Blaise get home?" she asked.

"They can squeeze him into her car, Judy says. It'll be a tight fit, but he can cling on by his eyelashes somehow."

Down in Weight and Very Pale

Mr. Beers Thankful For Way in Which Dr. Williams' Pink Pills Helped Her Back to Health

Caused Weight Loss and Color Loss

Miss Marie R. Beers, of Westchester, N.Y., writes: "After a long and very trying illness, I was down to 115 lbs. in weight. I could not eat a hearty meal. In fact I had to go away from the table hungry, from a dinner I dared not touch. I was also very pale. I had often read about Dr. Williams' Pink Pills, but I thought I was able to eat, with brighter, and life began to look better. My weight came up to 118 lbs. and my lips and cheeks had lots of color. I am now more than thankful I ever took Dr. Williams' Pink Pills, and I only hope others will try them."

Dr. Williams' Pink Pills actually create an abundance of new red blood, which is the reason they have given new vitality and strength to thousands of such seriously exhausted women. Equally helpful for growing girls. Try them. At your druggist's in the new glass container. Do not

"What's the matter? For God's sake don't look like that, Claire!"

Slowly, with difficulty, she wrenched her eyes away from that sere, conventionally figure in the dark green livery.

"Don't you see who it is?" she asked in a harsh, dry whisper.

Before Nick could answer, the man had made his way to Claire's side and paused respectfully.

THE RHYMING OPTIMIST

By Aline Michellie

THE RICHEST HOUSE

This little house is very bare and very poor and old. Its tenants live on meagre fare and suffer cold.

Sometimes a passer feels concern for those who live inside. And wonders if they do not yearn for wealth indeed.

Oh, eyes that stare and do not see, Oh, heart that holds no dreams, You are a shadow of poverty And where no joy gleams!

This little house is very cheap and very dim and small. Yet here peace leads to happy sleep And faith cheers all.

And here dwell love and song and And every kindly grace; Perhaps the richest house on Earth Is this poor place!

Mothers Value This Oil—Mothers who know how suddenly crowd may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Mother's Relief Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And are wise, for its various uses render it a valuable medicine.

Moslem Girl Becomes Pilot

Abandons Harem To Win Fame As Soviet Flyer

Less than five years ago Lella Mamed-Bekova, a Moslem girl in Baku, was wearing the horse-hair veil prescribed for wives, and living in the harem of an old-fashioned husband several times her age. Today Lella wears pilots' togs, flies an airplane and teaches at the aviation school. She is known throughout the Soviet Republic of Azerbaijan as the first woman flyer in that region.

Her life's story is being recounted in the journals of this country as an example of the strides being made by Eastern women. Their transition from medieval conditions to the most modern type of life is truly one of the most dramatic phases of the Soviet revolution.

Lella is only twenty-two. She was seventeen when she discarded her veil and abandoned the harem into which she had been sold at thirteen. She is the mother of two children. For months after she removed the veil Lella remained indoors, ashamed to show her face. By now unveiling is widespread, but at that time it was still not calling for courage; many women were murdered by their own families for such conduct.

Every one in Baku knows Lella Mamed-Bekova, and can point out the house where she lives. Lella is a symbol of pride to the new type of women in the Soviet Near East—and an object of hatred to those who adhere to the ways of their mothers.

Douglas' Egyptian Liniment should be every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation. Removes poor flesh.

New York state contains 49,204 square miles.

What Might Happen

If the Glaciers Should Melt, Ocean Waters Would Deluge the Earth

Just less the average temperature of the earth two or three degrees and you can bid good-bye to all the big cities on earth. Glaciers will melt and oceans will rise, and—

But let the weather man get in on this. Dr. William J. Humphreys, of the United States weather bureau, took a lot of evidence to make up the painstaking case presented to the American Meteorological Society, that the earth's glaciers, if melted, would raise the ocean level 150 feet, and that the aforementioned slight increase in warmth would do the melting.

One could still be dry above the 15th floor level in cities with skyscrapers, but all about would be the bounding waters. London, Paris, New York, Montreal, Philadelphia, Los Angeles, Washington, Shanghai—all gone.

By way of cheer, Dr. Humphreys pictured the world as delicately balanced between this catastrophe and the equally cheerless prospect of another glacial period. It would take but a drop of five or six degrees in the earth to bring back the ice age, with Canada and the United States as far south as Kentucky and Iowa one vast skating rink.

But skating enthusiasts needn't cheer. Dr. Humphreys said the earth is gradually growing warmer and the next ice age, although forecast, is some millions of years off. So, probably, is the glacier melting period.

"What's the matter? For God's sake don't look like that, Claire!"

Slowly, with difficulty, she wrenched her eyes away from that sere, conventionally figure in the dark green livery.

"Don't you see who it is?" she asked in a harsh, dry whisper.

Before Nick could answer, the man had made his way to Claire's side and paused respectfully.

(To Be Continued.)

ACID STOMACH IS DANGEROUS

Suffers From Indigestion CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused not only by chronic acid stomach, but by a well known authority.

Burns hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis or stomach ulcers. Don't do an acid stomach with pepsin or artificial stimulants. They only give temporary relief from pain by driving the acid, fermenting food out of the stomach into the intestine.

Instead, neutralize or sweeten your acid stomach after meals with a little Bismarck Magenta and not only will the pain vanish but your meals will digest naturally. There is nothing better than Bismarck Magenta, to sweeten and settle an acid stomach. One dose acts and feels fine in just a few minutes. Bismarck Magenta can be obtained from any reliable druggist in either powder or tablet form. It is safe, reliable, easy and pleasant to use. It is not a laxative and is not at all expensive.

Idle Money Earns Nothing

When Waterloo Bridge in London, England was built 120 years ago several sovereigns were buried in a block of granite forming part of it. When this bridge is pulled down each of these sovereigns will be worth 27s. 6d. when recovered, but had they been invested each of them would now be worth about 100 pounds.

The last session of U.S. congress saw the introduction of 6,641 bills.

The Chinese population of California is estimated 37,000.

The largest lobster cannery in the world is stated to be one at Pictou, Nova Scotia.

Living costs in Germany are dropping.

SHE HAD TO CRAWL TO BED

One said at a time—on her hands and knees—that was how she had to do it. And when she did get to bed, her troubles were not over.

"Then months ago I could not sleep on account of the terrible pains in my knees, and I might say in all my joints. At night I could only crawl to bed, not stir at a time. But since taking Kruschen Salts regularly, I have entirely lost all pains and stiffness, and, if needed, could now run upstairs two at a time. In fact, I feel 10 years younger. I shall never be without Kruschen Salts."—Mrs. A. E. D.

Do you realize what causes rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear those painful crystals from the system. The six salts in Kruschen are bound to dissolve away all traces of uric acid. And more! They contain the perfect form of uric acid as ever able to accumulate again. Prove this for yourself by buying a bottle of Kruschen.

Little Helps For This Week

"And now I exhort you to be of good cheer."—Acts xxvii. 22.

Make me as one that casteth not by day. A dreary shadow, but reflecting any One little beam, loved, warmed, and golden caught.

From the bright sun that lights our daily way.

You find yourself refreshed by the presence of cheerful people; why not make earnest efforts to confer that pleasure on others? You will find half the battle is gained if you will never allow yourself to say anything gloomy.—Lydia M. Child.

Western Enthusiasm Completed Bay Route

Now Up To People To Support Faith With Works

The people of western Canada should heed what Dr. Manion has said. It was the enthusiasm of the western provinces that carried the Hudson Bay route to completion. The people of the west should support their faith with works. Once it is certain that there will be ships at Churchill it should be made certain that grain will be there if it is moving anywhere—and no influence which the C.N.R. and the C.P.R. and the port of Montreal can exert should be allowed to prevent the sending of cargoes by way of Hudson's Bay.—Toronto Star.

Worms are encouraged by morbid condition of the stomach and bowels, and so subside. Miller's Worm Powder will after these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

HEAD ACHE

THE woman who lets headaches upset her plans must have her eyes and ears closed to certain facts about Aspirin. There is always swift comfort, and never any harm, in Aspirin tablets. Doctors have said so; men and women everywhere have found it so. Any headache—from any cause—is always relieved by one or two tablets. And lots of other aches and pains. Neuralgia. Neuritis. Rheumatism. Nipping pains. The pain from colds which make you "ache all over." Sore throats. Systemic or "muscular" pain. Aspirin can spare you lots of needless suffering! Be sure you get Aspirin—not a substitute!

ASPIRIN
MADE IN CANADA—TRADE-MARK REG.

SOUR STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is all, effective yet harmless. It has been the standard antacid for 50 years. One spoonful will neutralize at once many times its volume in acid. It's the right way, the quick, pleasant, and efficient way to kill all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine.

The ideal digestive for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior tooth paste that safeguards against acid-mouth. (Made in Canada.)

Blairmore, Alta., Thurs., May 12, 1932

USE YOUR LOCAL PAPER

Speaking at a dinner tendered to a large group of Kingston, Ontario, men, H. F. Stephenson, of the McKinn Agency, told his audience some simple but important truths regarding the building of business. In an informative address, he stated that the best way to sell a product was to tell the truth about it, because the public read newspaper advertising as a guide to the daily purchasing. Then he went on to give some advice to these Kingston business men, advice which is applicable to the business men of any community. He said:

"If you have a local newspaper, use it, even if you are located in one corner of the county and can only get value from a part of the circulation. Tell your story from time to time and you will profit by it."

"The newspaper is an important factor in knitting together a community, and to the extent that you can strengthen it you will be making the paper a stronger medium for your own and the manufacturers' advertising."

"Too many merchants endeavor to sidestep seeing a newspaper advertising man or publisher for fear that they expect them to cough up for some advertising; and too many publishers keep away from the merchants because they feel that that is the merchant's attitude. This is absolutely wrong, as the interests of the two are so bound up with the growth of prosperity of the district that they should work together at all times."

—The Pictou (N.S.) Advocate.

The lions would not eat Daniel, because he was all backbone.

A very pleasant event took place in Blairmore on Saturday afternoon, when a well known local character was presented with a new bible, to replace the one he had evidently read to such an extent that there was no more good left therein. Please note—it wasn't a Communist bible.

Alec Redzko, Nick Ukiervich, Mrs. Annie Polski, Mrs. Stelovich and Gaston Bazille, who were arrested during Communist demonstrations at Bellevue last week, will appear for preliminary hearing, and possibly final trial, tomorrow. Bazille is organizer of the youths' section of the Workers' Unity League.

An unusual funeral notice put up by the Reds of Calgary read: "All workers are requested to attend the funeral of Comrade John Olson, who died from inflammation of the stomach, brought on by rotten food consumed at Victoria Park." The man who posted it was taken into custody. Olson's death was from peritonitis.

Travel is now permitted over the new road around the McInnes hill, west of Crow's Nest. Work on this piece of road has been going on for upwards of two years, and if the time-worn system had been continued would not have been completed for another two years. A steam shovel accomplished more in six days than had been done in at least a year.

The successful Hillcrest string orchestra at the Lethbridge musical festival comprised the following players: first violins—James Marshall, Catherine Rose, Sandy Ferguson, Samuel Richards, Jenny Makin, Helen Ross; second violins—Donald Thornton, George Kerr, Sylvia Evans, Edna Evans; violas—Jean Cruickshank, Roy Upton, Wilfred Thys; cellos—J. E. Upton, G. B. Ross; bass—Harry Stobbs; piano—Helen Westrup; conductor—W. H. Moser.

SCOUT NEWS

The Wolf Cubs are progressing in their work very favorably. All Cubs are now past their Tender Pad tests, and three Cubs have passed their 1st star, viz: Herbert McDonald, Dick Morgan and Jack E. Whitham. Many others are very close to completing their tests. All are anxiously looking forward to the summer camp. Where and when this is to be held is not yet decided.

Camp funds are mounting up by means of the Cubs' Mothers very generous efforts. The committee under the leadership of Mrs. J. B. Wilson, president; Mrs. Jones, secretary; Mesdames Fleming, J. E. Gillis, L. P. Roberts, J. Patterson, J. Rudd, H. Blake, recently held a tea at Mrs. L. L. Morgan's home, which was quite a success, followed by a whist drive held on Wednesday, May 11th, which was also a huge success.

Previous to the whist, presentations of Tender Pad badges to the boys who have qualified in their tests were made by the president, Mrs. J. B. Wilson. This was a very pleasing ceremony, which was concluded with the Cub howl to the committee.

All spent a very pleasant evening at whist, followed by refreshments. The winners of the prizes were as follows: ladies' first, Mrs. J. A. McDonald; consolation, Miss G. Wheatcroft; Gent's first, J. A. McDonald; consolation, Mrs. D. Walker.

The following ladies very generously donated prizes: Mrs. H. Blake, Gent's first prize; Mrs. J. B. Wilson, ladies' first; Mrs. J. Rudd, Gent's consolation; Mrs. L. L. Morgan, ladies' consolation.

In the near future a film is to be taken of the boys giving a display. This entails quite a lot of preparation and it is hoped all parents will see that their boys attend regularly in order to keep in touch with their particular part of the programme.

Anyone desirous of tendering their services as instructors are requested to give in their names to the Cubmaster. Two instructors are required, and their services will be greatly appreciated. It is not necessary to have had any previous experience in scout work. Applicants must be over 18 years of age, to comply with provincial regulations, and either sex are eligible for the positions.

Correspondence with other Wolf Cubs in other parts of the world is to be encouraged, uniting the movement into one great brotherhood of peace by exchanging notes and promoting goodwill amongst all nations.

Next week letters to the natives of India and Assam, who have already formed troops of Scouts and Wolf Cubs, will be encouraged.

Donald M. Thompson, K.C., well known Pincher Creek lawyer, passed away rather suddenly at Pincher Creek Tuesday night aged sixty-three. Mr. Thompson was an old timer, coming to the west in 1903. He is survived by a brother in Winnipeg and other relatives. Funeral takes place at Pincher Creek tomorrow afternoon.

With the Musical Festivals being held in Cranbrook, Nelson and other places, it is well to make comparison with the old Chautauquus held in former years. While the Chautauquus management in every instance exacted a guarantee before their tent opened, the festival went along on its own reputation, and without obligation of any kind whatsoever. The competitions provided the entertainment and the adjudicator the instructions, and between the two the patrons received full value for their money. We have never seen a Chautauquus audience more interested in what was going on than we found at the musical festivals, nor was the programme of a higher class or more varied. At the festival just held here, there were choruses, trios, quartettes, solos and instrumental numbers vastly superior to any we have heard from the traveling troupes. Another bright feature about the festival is that all the money was spent in the district and remained in the district.—F.J.S. in Cranbrook Courier.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor.

"Serve the Church that the Church May Serve You."

Services Sunday, May 16th, the pastor in charge.

11 a.m.—SENIOR SCHOOL. Classes as usual.

The children's story is entitled "The Missing Pages." The minister's theme will be "The Message of Pentecost for Today."

These services will be held in the new church assembly hall.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, B.A., Rector

Services Sunday, May 16th:

Sunday School in the hall at 10 a.m.

Holy Communion at 11 a.m.

PENNINGTON—SCHRAM

A very pretty wedding was solemnized at Blairmore on Saturday, April 30, when Vera, young at daughter of Mr. and Mrs. Robert Schram, of Homer, became the bride of Edward Pennington, youngest son of Mr. and Mrs. Wm. Pennington, of Fernie.

The bride looked charming in her apple length gown of brown crape with accessories to match and was attended by Mrs. Jean Strachan, Mr. Sandy Schram, brother of the bride, supported the groom. The nuptial ceremony was performed by Rev. J. W. Smith.

After the ceremony, the happy couple were entertained to luncheon at the home of Mr. and Mrs. Ed. Peard, at Blairmore. The bride and groom entertained their many friends in the evening, when dancing was enjoyed till the early hours. The popular young couple were the recipients of many beautiful gifts. On their return from a short honeymoon trip by motor to Seattle, Wash., they will take up their residence in Natal, B.C.—Fernie Free Press.

The longest week-end holiday of the year, Victoria Day, May 24, falls this year on a Tuesday and furnishes the opportunity for the railways of Canada to render an outstanding service. Between all points in Canada and some specified places in the United States, return fares for the holiday will be at the rate of one and one quarter times the one-way first class fare. Similar concessions will also be given by the railways for the holidays on King's Birthday, June 3, and Dominion Day, July 1. Reduced fare tickets for the Victoria Day holiday will be on sale from noon, Friday, May 20, until noon, Tuesday, May 24. The return limit of these fares will be midnight Wednesday, May 25.

Travelling some eight thousand miles, of which six thousand will be covered by rail, fourteen hundred by steamship, five hundred by automobile, with an optional eighty mile journey by air, the all-expense Canada tours of the Canadian National Railways which will leave Montreal and Toronto in July, are attracting much attention from holiday makers. All of the details of travel are looked after in advance in these pre-arranged tours, even to arrangements for laundry service at points enroute and for the delivery of mail at various stopping places, sight-seeing trips in various cities, automobile tours in the Canadian Rockies, steamship journeys on the Great Lakes and the Pacific Coast are included in the plan of the expense tours and in addition the travelling trailers are given the option of leaving between Victoria and Vancouver on part of their journey.

Local and General Items

"Doc" Blagney has been elected president of the High River Rotary Club.

Newfoundland's re-distribution bill provides for twenty-seven seats, instead of forty as at present.

Sir Henry Thornton is called on to do a good deal of explaining regarding "entertainment" expenses.

The British Columbia Oddfellows' Grand Lodge will convene at New Westminster on Wednesday, June the 8th.

A large number of sight-seers are heading for Cowley today, where a Dookhobor demonstration is announced.

The Canadian government's love for the Dookhobor-nudists was further demonstrated by the arrest on Monday of an additional 249.

Red Deer's public library recently handled eight hundred books in one day. The library has a very large reading membership.

One-day permits for fishing in Alberta have been discontinued. Trout fishing in South Alberta waters opens on June 16th, as formerly, with license fee of \$2.25.

Three quarters of a billion feet of Russian timber has been sold to Britain this season, which reduces Canada's share of the British market by at least half of last year.

A Russian, who had assumed an Irish name, committed suicide near Fort Steele recently. It is sincerely hoped that others of his ilk with that "assuming" propensity will soon follow suit.

Walter Rae Murray, who escaped from Lethbridge jail on April the 20th, was captured last week at Fernie. After being arrested at Fernie, he made a second getaway, but was rounded up in short order.

The warehouse of Western Grocers Limited, Cranbrook, was entered by some expert cracksmen last week. The safe was blown and around \$75 taken therefrom; also razor blades and other articles from the shelves.

The combined assets of the Canadian International Paper Company, the New Brunswick International Paper Company and the International Paper & Paper Co. of Newfoundland, Ltd., totals over \$150,000,000.

Digging in a stable a few days ago, Joe Rossi recovered a brass ticket, slightly larger than a fifty-cent piece, bearing the words "Good for One Dollar in Groceries at Lang's." A. V. Lang's store operated at Frank up to about nineteen years ago.

Mr. and Mrs. H. Clements left on Friday on a journey to Regina, where they will spend possibly a week or more. The occasion is the celebration of the twenty-fifth anniversary of their wedding, which took place on Friday, April 29th. Mr. and Mrs. Clements will be guests of Mr. and Mrs. Monty Clements, and Mr. Clements' sisters, Miss Lollie Clements, B.A., secretary to the lieutenant-governor of Saskatchewan, and Miss Mildred Clements of the teaching staff of the City of Regina—Pincher Creek Echo.

Quite a number of parents, as well as members of the board and teaching staff, were in attendance at the local school last week, when through Mr. L. L. Morgan, president of the Crows' Nest Pass Musical Festival, the beautiful Gyro Club shield, won by the local school orchestra at the recent festival, was presented to the school through the orchestra leader, Mr. J. E. Upton. Appropriate addresses were delivered by Mr. Morgan, Mayor Farmer, W. H. Chappell, Chairman Pinkney and others. At the conclusion of the presentation of the shield, medals were presented by W. H. Chappell, past chairman of the school board, to Miss J. Linn and Billie Fraser, for highest scores made in classes for boys and girls at the last district schools track meet. The Gyro Club shield now adorns the wall of the senior high school room.

FOR SALE

5-Acre Ranch

Half-Mile to Bellevue, will be Sold Cheap.

There is a good house, big garage, chicken house for 150 hens, barn for 4 cows, good creek flowing through place. House has wash basin and sink, with hand and electric pumps; good cellar.

Come quickly, as this will soon go.

Apply, JOHN GERRARD, Maple Leaf, Bellevue.

"Sacred to the memory of Major Brush, Royal Artillery, who was killed by the accidental discharge of a pistol by his orderly, April 11, 1891. Well done, good and faithful servant."—Epitaph in an English churchyard.

Ered D. Pollard, junior, of Newton, prominent Boston lawyer and second cousin of former President Coolidge; Pollard's wife and a Boston youth, Thomas McCaffery, 21, were burned to death at Boston on May 11th in a head-on collision of two automobiles.

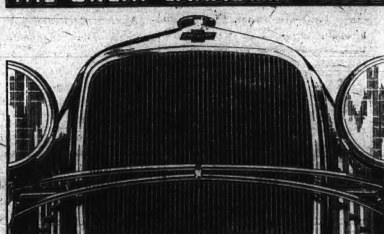

Eighty-four Dookhobor men and thirty-four women pleaded guilty to the charge of parading naked near Nelson and were sentenced to three years each in jail. The men will serve their sentences at New Westminster, the women at Kingston, Ontario.

Once upon a time, an enterprising poultry man crossed his hens with parrots to save time. He used to spend much time hunting the eggs, but now the hens walk up to him and say: "Thank, I just laid an egg. Go get it."

Mr. and Mrs. Max Muts, of Vulcan, were motor visitors in The Pass as far as Fernie during the week, returning to Lethbridge yesterday, where, we understand, Mr. Muts is to open a new service station. They were accompanied by Mr. Charles Lang, of Vulcan.

The little daughter of Mr. and Mrs. Benson passed away a few days ago at Michel. Several days previous, the little had the misfortune to fall into a tub of hot water, suffering very severe scalds. Mr. Benson is in charge of the Triton-Wood Co. meat department at Michel.

THE GREAT CANADIAN VALUE

THESE REASONS

make it wiser than ever
TO CHOOSE THIS SIX TODAY!

1 Chevrolet pioneered the six-cylinder engine in the low priced field because this is the one type of power plant that strikes a perfect balance of smooth performance and maximum economy. It is necessary to have six cylinders to get multi-cylinder smoothness.

2 Drivers of sixes never want less; and anything more than six cylinders means a sacrifice of economy. The Chevrolet Six costs less to operate than any other full-size car. Naturally, more than six cylinders would mean greater expense for gasoline, oil and upkeep.

3 The 1932 Chevrolet Six is a proved car. It represents the fullest development of the basic multi-cylinder principle which has resulted in highest satisfaction to more than 2,000,000 Chevrolet Six owners.

4 The Chevrolet Six is the lowest priced car combining Silent Synchro-Mesh shift and Free Wheeling.

5 Bodies by Fisher are exclusive on Chevrolet in the lowest price field. Fisher hardwood-and-steel construction is the safest and most durable.

6 New, reduced prices and easy terms over a period of months. Immediate delivery of any model.

7 The Chevrolet motor is mounted on thick rubber blocks, utilizing the most modern and efficient method of preventing vibration.

8 109-inch wheelbase. Strong frame. Four long springs, with four Lovejoy shock absorbers.

9 Stabilized front fender design. Insulated driver's compartment. Fisher non-glare VV windshield, easily adjustable with one hand for ventilation.

10 Down Draft Carburetion with heat control. Harmonically balanced, counterweighted crankshaft.

11 Powerful, enclosed four-wheel brakes. Separate emergency brake system.

12 Built in Canada, of Canadian materials by Canadian workers.

From Our Own Correspondents

BELLEVUE HAPPENINGS

Mrs. Edward Fisher entertained a number of friends at bridge on Wednesday evening.

Mrs. A. Hallworth entertained a number of friends at bridge on Thursday evening. Honors were won by Mrs. Eddie McDonald and Miss Matkin, first and second.

Miss Freda Gilroy left Sunday for Powell River, B.C.

Mr. F. Gilroy left for Creston on Sunday morning.

Charles McDonald is a patient in the Bellevue hospital.

Blairmore College defeated the local ladies at softball on Tuesday evening.

The Mohawk Wildcats defeated the Miners 7-3 on Sunday afternoon.

Bellevue mine is shut down for an indefinite period after the trace called by Mr. Vissac on Thursday, the miners turned down the company's offer.

HILLCREST HAPPENINGS

The football game on Saturday evening, between Coleman and Hillcrest, resulted in a draw.

Miss Gladys Rhodes returned on Monday to her home in Champion.

Mrs. T. O. Davies was a visitor to Lethbridge last week.

James Marshall received the honor mark of 90 in the senior open violin at the Lethbridge musical festival. He was highly praised by the adjudicator. Lawrence Fisher was first in his violin class; Jean Cruickshank

took second place in violin under sixteen years. Mrs. D. Thomas received 91, the highest mark in the festival, for her vocal solo, "The Monster of a Sea." Miss Brenda Cross obtained first in the junior vocal class.

The Hillcrest road is being surfaced over its entire length.

Mr. and Mrs. A. Blackie, of Fernie, were visitors with Mrs. G. Bamforth over the week end. Mrs. S. Taber and children returned west with them.

Mr. and Mrs. G. Cruickshank, accompanied by Mr. and Mrs. Stobbs, motored to Lethbridge for the musical festival. Mr. and Mrs. W. H. Moser, Dr. and Mrs. G. B. Rose and Mr. and Mrs. S. Marshall were also Lethbridge visitors.

The Hillcrest orchestra conducted by W. H. Moser, received high praise on its several renditions at Lethbridge.

Mrs. B. Fisher and Mrs. J. Cross were Lethbridge visitors last week.

The Catholic whist drive and dance was a great success. Whist prizes were awarded as follows: Mrs. W. Adlam, ladies' first; Mrs. W. Panick, second; John Ulrick, gent's first; G. Lorenzo, second. Gwen Hemlock held the lucky door ticket. After supper, dancing continued till the early hours. Music was supplied by the Blue-it orchestra.

Mrs. Rhodes returned home on Saturday after visiting with her daughter, Mrs. D. Curry.

Miss Jessie Collinson returned home from Edmonton last week.

Miss Evelyn Stenhouse returned from her visit with Mrs. F. Leavitt at Leavitt.

Mrs. W. Drushette has been confined to her home through illness for the last week.

Mr. P. J. Smith motored to Lethbridge last week to attend the musical festival.

The Well-heddy will hold a dance in the Union hall here on Monday night next, the proceeds to go towards the Boy Scouts' fund. The Arcadians' orchestra will be in attendance.

COWLEY HAPPENINGS

A concert and dance, sponsored by the Luncheon Women's Institute, was held in the Luncheon community hall on Friday night, May 6. The early part of the evening was taken up with a snappy programme, which consisted of a couple of one-act plays, music and recitations by local talent. After an appetizing luncheon was served, a lively dance took place to excellent music furnished by Miss Peggy Cole's orchestra, of Bellevue.

After spending the winter months at Armstrong, B.C., Joe Wilson has returned to spend the summer here.

Mr. Reeves, of Lethbridge, was a business visitor to Cowley the early part of the week. He was accompanied by his wife and little son.

Harry Hantam, of Lethbridge, was a business visitor in the district the latter part of the week.

Mothers' Day services were held in the Anglican church on Sunday afternoon, when Rev. Mr. Jeffcoat, of Pincher Creek, filled the pulpit.

On Sunday afternoon the River Rats and Cowley boys played two games of baseball, with the first game resulting 16-1 in favor of Cowley, while the second game went to the Rats with a score of 5-4. This was the first game of the season and some good play was put up from each of the teams. The Cowley players were: Pratton, Duffield, Danbols, Black, Murphy, Bouthillier, Day, Easterbrook and Potapoff. The opposing team was: Bourassa, E. Smyth, H. Smyth, T. Dwyer, C. Dwyer, L. Franz, J. Franz, W. Franz and Snyder.

Miss Hazel Blackburn, of Fishburn, was a guest of M. A. Murphy and family for a few days during the week.

CORBIN HAPPENINGS

At a meeting held in the B. & B. hall on Friday last, Mrs. Roger Pasiaud was elected chairman and Mrs. T. Collins captain of the ladies' softball team. Mrs. Pasiaud, Mrs. Collins and Miss Marie Almond, to act as entertainment committee. The ladies also decided to hold a dance, the proceeds to go to club funds. Practice has begun, and several managers of other softball teams in The Pass have been communicated with, with the view of arranging home and home games.

The last bridge drive of the series sponsored by the Edith Cavell Rebekah Lodge was held in the B. & B. hall on Thursday night last. Eight tables were at play, at which Mrs. L. V. M. Peel won ladies' first prize; Mrs. P. Elms the consolation; Mr. Moore gent's first; Mrs. H. Parsons, gent's consolation. For the bridge series held throughout the winter, Mrs. T. Collins took first place with a score of 12004 for the nine evenings, and won a beautiful, hand-embroidered bedspread. Mrs. H. Ferryman was awarded the season's consolation in the form of a very pretty cup and saucer. Darwin Coote received gent's high prize. After cards, Mr. and Mrs. Gaskel and Barney Lyne furnished excellent music for dancing, which was kept up till the wee sma's hours.

Coleman took the lead in the first inning of Sunday's game, scoring two runs to Corbin's one, and held their one lead into the fourth, when Corbin broke loose and scored five. Coleman changed pitchers twice, but were unable to stop the steady hitting Corbinites. Corbin changed pitchers in the third, Jack Falconer going to the mound to replace "Dip" Selahsky. Teams as follows: Coleman—Fraser, r.f.; Atkinson, 2b; Hayson, 1b; Gate, c.f.; Richards, c; McLeod, 3b; Pattinson, s.s.; El Yagos, l.f.; P. Yagos, p. Corbin—Sloane, 1b; Kay, 2b; Wilde, s.s.; Falconer, 3b; Hoffman, l.f.; Carter, c.f.; Latek, r.f.; Roscal, c. Referee, Roy Taylor, of Michel.

The so-called strike in the Crow's Nest Pass coal camps appears to be a most futile affair. No attempt is being made to lower wages. A large number of the workers are satisfied and want to go to work to earn what money they can, but a radical element which appears to be under the thumb of a foreign organization won't let them. Public sympathy certainly will not be with the striking forces.

—Lethbridge Herald.

COWLEY DOUKHOBORS HAVE BEEN LAW-ABIDING GROUP

COWLEY, May 10.—As unfounded rumors went abroad that the Doukhobors in this district were going to stage a demonstration on Monday afternoon, the truth of the matter was that they were to hold a meeting at which every member was expected to attend for the purpose of signing a petition asking for Veron's release.

There has never been any trouble in this community in the sixteen years that the Doukhobors have resided here—no demonstrations or disturbances of any sort. The members here have been a quiet, hard-working group, apparently having little sympathy for the radical group as was evidenced last year when a member of the B.C. agitators visited the community for the purpose of speaking at one of their gatherings. Fearful that he might cause trouble in their ranks, they seized the man, shut him up in a room until train time the next day and then escorted him to the station and speeded him on his way out of town with the warning not to come back again.

There was a little trouble, years ago, about school attendance, but when they realized that the law of compulsory attendance was going to be enforced the children were sent to school.

The old people of the community are hoping to go back to Russia, others are insisting that they are going to migrate to a country where they will have absolute freedom to do as they please, while others admit they will get along just as well, if not better, without the presence of the leader. Some of the members think that he has been a little too zealous in the money that he has extracted during the past few years.

—Cowley Correspondent to Lethbridge Herald.

The Grand Theatre property at Coleman has been sold by Andrew Dew to E. A. Regner, of Pincher Creek, who is converting same into a garage. The location, for garage purposes, is most ideal, being on Main Street and at an avenue corner. The work of remodeling is already well under way.

While returning home on Saturday night, James Allison, senior, of Bellevue, was attacked by two cowardly individuals, who knocked him down with a blow on the head. The attack was most brutal. After knocking him down, they used their boots on

him, bruising him badly. Mr. Allison, who is seventy years old, managed to reach his home with difficulty.

POLICE SHOOT "VICTIM"
IN KIDNAPPING CASE

The present roundup of British Columbia Doukhobors is going to cost the government around \$300,000, it is those arrested serve the full three years in penitentiary. Besides the men and women prisoners, a large number of children would have to be maintained, making another \$45,000 or more.

CHICAGO, May 5.—Police man Joseph Haller nipped "kidnapping" right in the bud today. He shot the victim, but the criminal escaped.

In the early morning hours he heard the sound of crashing glass. Running to the scene he saw two men, apparently struggling from a building. Then one picked up the other and started for a parked car.

Officer Haller leveled his pistol. The shot brought down the kidnapper's victim. Haller pursued the fugitive, but was outdistanced. Then he went back to the wounded man.

He was of wax, and wore a \$17.10 suit.

Teamwork

The one word or term embodying the thing most needed now and most likely to be needed in an increasing way for the long pull back to more satisfactory economic and social conditions is, in our opinion, "Teamwork." If there ever was a way called for "the long pull and the strong pull altogether," that time is now.

A farmer following his horses as he guides a plough along the furrows knows what teamwork on the part of the horses means; also teamwork between the horses and the ploughman. Possibly he realizes the full value and necessity of such teamwork in an even more striking manner when it is lacking, and as the outcome, proper results are not being achieved.

Men participating in the many fields of sport have a full appreciation of the value of teamwork. Every successful captain of a team drills it into his men. But how frequently one reads that such-and-such a team, while composed of brilliant and superior individual players, lost out to an individually inferior team because of a lack of co-ordinating effort—in a word, teamwork. And this lack of teamwork all too frequently results because one or more of these individually brilliant players desire to keep themselves in the "spotlight," play to the gallery, and win plaudits for themselves rather than for the team as a whole.

Success in military exploits depends to a very large extent upon teamwork, the co-ordination of every arm of the service to the achievement of one common object, the co-operation of each unit with every other unit, both in preparation and final action, to the end that victory be won. Without this "union in service" the bravest men in the world are likely to suffer defeat at the hands of an inferior but more unified force. Victory does not always rest with the big battalions, but with the compact body which moves and acts with precision as one man.

The same principle applies with equal truth and power in the realm of national, political, and community life. If in an army the artillery considered that it, and it alone, was the effective instrument in winning battles, and instead of co-operating with the infantry, tanks, machine-gunners and aircraft, actually ignored and even strove against them, the enemy would win. Yet, how often groups of people having a common object in community effort or in the political arena, instead of working together to achieve that object, actually oppose each other solely because they do not agree upon every detail of their programme, nor see eye to eye as to the methods by and through which the reforms desired by all are to be brought about. And the result, of course, is victory for the other group or policy to which they are all opposed.

There are many time-honoured maxims which point the truth that teamwork is essential to success. "In union there is strength," "United we stand, divided we fall," while for the enemy forces there is always the further maxim: "Divide and rule."

Teamwork can only be brought about by a willingness to compromise. Some good people regard the word "compromise" as something essentially wrong, as a great evil. True, right cannot compromise with wrong, nor honesty with dishonesty, but where two are striving for what both believe to be right, and in opposition to what they are agreed is unwise or wrong, it is the height of folly to divide into separate and opposing camps, weakening each other and the cause they both desire to advance, simply because of minor differences of opinion as to exact objective to be achieved or the methods by which it shall be achieved. Unless there is compromise, rather than each one insisting upon acceptance of their views to the exclusion of others, failure for both must inevitably follow and victory be recorded for the common enemy.

The experiences through which the world is passing have impressed a majority of people with the need for more or less radical changes in our economic and social structure. That change is necessary is fairly well recognized, but some desire to move much more rapidly and drastically than others; some believe the remedy for our ills is to be found in another policy; others, again, advocate something else. All want improvement, reform. But through divided councils, lack of co-operation, in a word, an absence of teamwork, nothing but confusion has thus far resulted; while those minorities who are more or less satisfied with things as they are, by working together, are enabled to make their voices heard.

This condition prevails in society, business, community effort, in municipal, provincial, and international politics. It is even found in family life. It is fatal to progress, a continually delaying factor in the onward march of reform.

What the world needs today is not antagonism, but mutual sympathy; not competition, but co-operation; not strife, but co-ordination of effort; not single-handed plans, but teamwork. And these things can only be brought about by compromise. So, let's compromise and develop mutual strength through teamwork. The world will then begin to get somewhere, and out of the slough of depression in which it continues to founder.

New Weapon For Surgery

Operation To Remove Cancerous Lung

Was Successfully Performed

For the first time in the history of surgery and the treatment of cancer, an entire lung, with a cancer in it, has been removed by the use of the knife, and the patient cured.

This was made known in an interview with Dr. A. Lockwood of the Lockwood Clinic, who has returned to Toronto from the annual meeting in Ann Arbor, Mich., of the American Society of Thoracic Surgeons, where the disclosure was made.

During the society's three-day meeting, details of this extraordinary operation were revealed in detail by Dr. Edward D. Churchill, of Boston, Mass., who performed this feat of surgery. The patient's chest was lifted, and all three lobes of the right lung, the centre lobe containing the cancer, were cut entirely away.

Dr. Churchill's case, it was demonstrated, had made it clear that there was no further site of cancer which could be dealt with surgically, which in the past could not be dealt with at all.

Believed to have been burning from 10 to 15 years a fire has just been discovered under a hospital at Stoke-on-Trent, England.

Saskatchewan now has 126,871 farms and Alberta 97,823.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Storms, R.R. 6, Pictou, Ont., writes: "I was troubled with palpitation of the heart; couldn't sleep, day or night, and was so weak I could hardly get around."

After taking Milburn's Heart and Nerve Pills, I was greatly relieved of these attacks. My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful medicine."

Sold at all drug and general stores, or mailed direct on receipt of order by The T. Milburn Co., Toronto, Ont.

Plane Surprises Natives

Dayaka Of Barrow Wanted To Know

If Flying Machine Laid Eggs

The head-hunting Dayakas of Barrow were so intrigued at the sight of their first aeroplane that they wanted to know whether it laid eggs.

Richard Halliburton, of Memphis, who is on a leisurely flight around the world, told the story to subscribers in New York in a cable from Manila.

The Tennessee flyer's message said he had arrived at Manila at the end of a 40,000-mile flight and had spent three weeks in Barrow with his plane, the "Flying Carpet," visiting the head hunting Dayakas, who never had seen an aeroplane.

"Took the chief flying in native undress, except for goggles," the cablegram said. "Apparently, big event in Dayaka's history. War boats were filled with warriors who came 100 miles to see the chief fly. Dayakas asked if aeroplane laid eggs."

Used Ancient Seed

Green Peas From King Tut's Tomb

Cultivated Near Port Arthur
Green peas, King Tutankhamen's own favorite brand, are growing to-day in Pass Lake 25 miles north of Port Arthur. M. Pejstrup is the possessor of more than two hundred of them grown on one stalk.

A year ago Mr. Pejstrup visited his home in Denmark and while there purchased a solitary pea for \$25. He tells that six peas were brought from the tomb of King Tut in Egypt by a Danish missionary, and sold for amounts varying from \$25 to \$50, and the one purchased by Mr. Pejstrup was planted here in the Danish settlement last summer.

The stalk of the pea was about five feet tall topped with a cluster of multi-colored flowers. The stem being about half an inch in diameter. From the solitary pea planted a yield of over 200 was obtained.

What the automobile has taught women about household lubrication

Experience with motor cars has taught women that moving parts must be protected against wear by a film of oil. Many of them haven't learned, however, that moving parts of sewing machines, vacuum cleaners, lawn mowers, washers, and other mechanical devices must also be protected against dirt and rust.

3-In-One Oil not only lubricates; it also cleans and protects. It is different from all others, because it is a scientific blend of three high grade oils—animal, mineral and vegetable. 3-In-One is the oil you should use on mechanical equipment if you want results.

Don't risk your expensive household devices by using oil that does only half the job. Insist on the old reliable 3-In-One. It costs little more to buy and much less to use. At good stores everywhere. For your protection, look for the trade mark "3-In-One" printed in Red on every package.

A Sincere Compliment

New Vicar Was Sized Up As Real Good Sport

The new vicar paid a call on the most wealthy of his parishioners, who was delighted to find that the clergyman was a man of such broadmindedness and with such an interest in sport. After they had discussed the Boat Race and other recent affairs in sport the vicar rose to go. The other, clapping his hands on the back, said "I think we shall get on very well together, vicar. To tell you the truth I hate those religious parsons."

Like a Grip At The Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible; the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedy. It immediately relieves the restricted air passage. Those who can testify. It is sold by dealers everywhere.

Called His Bluff

The time had come to dish up the ration, and in an Irish regiment the quartermaster and his assistant had been portioning them out in preparation for distribution.

The assistant turned to the quartermaster and with a twinkle in his eye said: "Av ye please, sorr, there's a loaf short. Wholl I give it to?" "Keep it yourself," Mike replied the quartermaster.

Camels in the small province of Cirencala, Africa, now number 40,000.

Poison Ivy is most virulent at the flowering season.

Of the 92 chemical elements, 47 of them are found in the sea.

Danger in Worn Tires

If Used At All Should Be On Rear Wheels

It has been pretty definitely established that the rear right tire is the first to wear out, the rear left next, the front right next, and the front left last of all.

As a result, practice has become almost general to shift the worn-out rear tires to the front wheels with the idea of evening up the wear.

This, however, is dangerous. When a worn tire blows out on a rear wheel, while the car is travelling at a high rate of speed, the driver still has enough control of the front wheels to guide the car safely out of a dangerous skid.

When, however, a front tire lets go, and the car is moving fast, there is almost nothing the driver can do. The steering is thrown out of his control, the car is forced into a serious skid and there are great possibilities of injuries to all in the car.

Rather have a worn tire on a rear wheel, even though it will wear down so much faster, than risk it to the front. For greater safety, however, a tire that shows the first mark of a tread worn down to the fabric should be taken off and used only as a spare.

Even as a spare, it should be in use only long enough to get a good replacement.

Suffering in silence is more than if you explain what you're doing as nobody will miss it.

Large shipments of construction materials continue to arrive in Manchuria.

Baby's Own Soap

China, the most populous nation in the world, had 470,821,000 inhabitants in 1920. That country has 2,504 persons for each square mile of land area.

Radium Found In Ocean

Scientists Claim Vast Stores Are Deposited At Bottom Of The Sea

Vast stores of radium, cached in Davy Jones' locker were described by scientists before the American Geophysical Union.

Sediments on the bottom of the Pacific Ocean are from four to nearly 12 times as rich in radium as ordinary rocks on dry land, according to figures quoted by C. S. Pigott, based on samples dredged up from the sea floor. The most radium is in the deeper parts of the ocean bottom, remote from land, and Pigott estimated the total hidden there at about a billion tons.

The radium is sent to the bottom mostly by oxidation in the sea water, while some is carried down by skeletons of tiny sea creatures and dust particles, he explained.

Forster Balm—the peerless aid to loveliness. Delightfully fragrant. Delicately to use. Leaves no stickiness. A little gentle rubbing and it is swiftly absorbed by the tissues. Tonic in effect. Soothes and dispels roughness and chafing. Keeps skins soft and velvet-textured. Unrivalled for charm, distinction and refinement. Used by lovely women everywhere to preserve and enhance their natural beauty.

Keep On Working

Despite Disarmament Talk New Weapons Being Invented

Just as a fillip to the disarmament discussions, we suppose you noticed that Haddfields, Limited, munition manufacturers of Sheffield, England, have developed a high explosive shell that will pierce the best quality of armor plate one foot thick, from a distance of ten miles.

While the world talks much of disarming, the men who sit back and invent new schemes for killing millions keep right on working—and producing results.

A new highway machine invented by an Iowa, digs up the surface of old gravel roads, mixes the material with a bituminous binder and spreads the mixture back on the road again.

Cried at Night

"Night after night, as soon as we would get settled in bed, baby would start crying. . . BABY'S OWN TABLETS changed all this. What a blessed relief," writes Mrs. Arthur Baker, Jr., Winona, Ont.

Baby's Own Tablets for teething troubles, colds, fever, colic. Absolutely SAFE. 25c package. 25¢

BABY'S OWN TABLETS

Split the Atom

Scientists Have the Way For Transmuting One Element Into Another

Two British scientists have at last "split the atom," paving the way for transmuting one element into another, the goal of alchemists many centuries ago, and the dream of modern chemists.

Dr. P. D. Cockroft and Dr. E. T. S. Walton reported the result of experiments in the Cavendish laboratory which culminated in the transmutation of hydrogen atoms into helium atoms, by bombarding them with electric particles.

Dr. Cockroft said he and his colleague bombarded hydrogen atoms with a voltage of 120,000 and that under the bombardment the hydrogen atoms began to break up into helium, a still rarer gas. The helium atoms, he said, came out of the bombardment with energies of 100 to 160 times those of the particles fired into them.

Only one particle broke up, however, for every 10,000,000 particles used to bombard it, he said.

Optimistic scientists have long hoped to split an atom, some contending that when this feat was accomplished a boundless source of energy would be available. There have been extremists who feared the accomplishment would mean the hurrying of the world to destruction.

"It is difficult to say what this discovery may lead," Lord Rutherford said. "Up to the present the experiments have not yielded anything which will be of immediate commercial value."

China Leading Customer

China is the leading customer for complete aircraft made in the United States. In 1920 and 1921 China held the lead over all other countries. The Chinese like American machines because their territory bears a remarkable similarity in flying conditions to those in the United States.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extremator.

Too Bad For The Wife

A farmer appeared the other day at a theatre that is accepting two dozen eggs as the price of admission. He handed a paper sack to the ticket-taker.

"There's a couple of dozen eggs, mister," he said. "I want to see your show. I'd have brought the misus with me if the hens had shelled out a little better."

China, the most populous nation in the world, had 470,821,000 inhabitants in 1920. That country has 2,504 persons for each square mile of land area.

TABLE REPORT ON CLOSING OF MANITOBA BANK

Winnipeg, Man.—A majority report of a special legislative committee, tabled in the Manitoba House, said it would not have been necessary to close the Manitoba Provincial Savings Office if the Dominion Government had given the necessary guarantees, sought by Premier John Bracken.

The committee was appointed to inquire into circumstances surrounding the office's closing by the Manitoba Government in March. Accounts of the office were taken over by the chartered banks.

Two Conservative members of the legislature, one Manitoba member of parliament, and three prominent Winnipeg men are named in the report as persons who started the rumors, causing a run on the government-owned office which eventually led to its closing.

They are Erick Willis, Conservative member of parliament for Souris; John T. Haig and F. V. Newton, Conservative members of the legislature; Valmore Schweitzer, provincial organizer for the Conservative party; Dr. L. B. Wilmut and Dr. C. Rice.

The Dominion would not have assumed any greater responsibility in guaranteeing deposits in the Savings Office than it did when it guaranteed the banks, the report sets out.

Refusal of the Dominion to grant these guarantees at the request of the province, the report declares, "cannot be justified in view of the guarantee given later by it to the banks, and in view of the assistance given to other provinces."

The committee found that the business of the Savings Office was normal up until about January 7, 1912, when "unusual withdrawals of deposits commenced as a result of rumors."

The run on the office was attributed by the committee directly to "rumors" that the office was unsound.

"They were in fact," states the report, "the result of a deliberate and organized campaign."

The report was signed by the five government members of the committee appointed to inquire into closing of the office, and S. J. Farmer, Laborist, Brandon, and J. C. McFadden, Conservative member, are expected to table a minority report.

Government Control Of Radium Considered

Information Given To Senate By Hon. Arthur Meighen

Ottawa, Ont.—Government control of radium production and conservation is having the "immediate and earnest" consideration of the government, Right Hon. Arthur Meighen, leader of the Senate, told that body.

The danger of a mining rush into the Great Bear Lake district of Canada's North West Territories, a thousand miles north of civilization, with the possibility of winter overtaking the men before they could get out, was feared by Senator McRae. He urged the government to take such measures as will ensure no man going in who had not made proper provision for getting out.

Receive Flower Seeds

Toronto, Ont.—Flowers will bloom again in drought-stricken western Canada. A letter received by W. L. Aiken, Toronto, originator of the idea of despatching flower seeds to western Canadians, expressed gratitude for the thoughtfulness of Ontario people. The letter was signed by G. B. Daniel, general manager of the Saskatchewan Relief Commission.

U.S. Taxes All Cheques

Washington, D.C.—A tax rate of four cents on the sale of each \$100 bond was voted by the United States senate finance committee. The rate was the same as set for stock sales. The committee made all cheques subject to the two-cent tax, eliminating the 35 cent allowance in its original proposal.

Great Britain To Reply

London, England.—Sir John Simon, Secretary for Foreign Affairs, told parliament that Great Britain expects to reply soon to the United States note proposing that debt payments suspended under the Hoover moratorium should be made in annual installments.

This concrete roof of large spans can now be built with no intermediate supports, as a result of a new system of reinforced concrete construction.

W. N. U. 1941

Adventurous Cruise

Small Vessel To Sail For Southern Seas In Search Of Treasure

Toronto, Ont.—Bound south, the 60-foot auxiliary schooner "Wanderer" will dip her flag in farewell to Lunenburg, N.S., in a few weeks on an adventurous cruise. Skipped by Lieut.-Commander Geoffrey Cough, of Toronto, the little vessel will follow a long itinerary. The only woman in the crew is Mrs. Cough, while Frank Everett, her brother, and Murdoch Kirby are the other principals in what is hoped to be a search for treasure.

The party is to search for treasure in Cook Island and collect data on the Hakkaido—the mysterious reef said to inhabit Easter Island. Everywhere they visit photographs are to be taken, and when the ultimate destination, Singapore, is reached, the party hopes to have one of the most valuable photographic collections of South Sea information in existence.

Assistance Will Be Given

Dominion To Stand Behind Province In Relief Matters

Ottawa, Ont.—The Dominion will contribute and where necessary loan also to the province, in the matter of direct relief; a percentage of relief costs yet to be determined will be paid to the provinces; and if a province is unable at the moment to pay its share, the Dominion exchequer will loan this amount taking in security treasury bills.

This position of the Dominion Government was made clear in the House of Commons by Hon. W. A. Gordon, Minister of Labor, during consideration of the measure of the government. The minister was answering a request for the attitude of the Administration from Rt. Hon. Mackenzie King, opposition leader, and Hon. Ernest Lapointe (Lib., Quebec East).

Amazing Spirit Manifested

No Evidence Of Complaining On Part Of Business Men And Farmers

Vancouver, B.C.—Impressed with "the amazing spirit of optimism and hope" on the Canadian prairies, Hon. H. H. Stevens, Minister of Trade and Commerce, reached Vancouver for convocation of the University of British Columbia.

There is no evidence of whining or complaining on the part of business men and farmers in the prairie provinces, he said. "Crop prospects are good and when harvest comes there should be a wide demand for labor. It is noticeable that there is a return to the old horse power in replacing machine power on the land."

Dawson Ice Breaks Early

Woman Was Winner Of Annual Prize For Guessing Date

Dawson, Y.T.—The ice in Yukon River moved out in front of Dawson on May 1 at 7:32 p.m., Y.T., thus deciding Dawson's annual ice sweepstakes, which promises the year's confined solely to Dawson City and the immediate vicinity.

Total pool was \$1,200, given as one prize and won by Mrs. Negan of Gold Bottom Creek, with a guess of May 2, 7:37 a.m.

This is one of the earliest break-ups of the ice at Dawson in the memory of the white men.

Editor Arrested

Finnish Newspaper Man Of Sudbury Whisked Away Under Police Guard

Sudbury, Ont.—Arvo Aarna, editor of the Finnish daily "Vapaus" and Martin Parker, translator, arrested in a Royal Canadian Mounted Police raid on the newspaper's offices, were loaded into an automobile and rushed out of town in a southerly direction. Five plain clothes detectives guarded them.

Mounted police refused to divulge the destination of the car bearing the prisoners and declined to discuss the case.

Naval Appointments

Ottawa, Ont.—The appointment of Commander V. C. Broder as commander-in-charge at Esquimaut, B.C., effective from May 27, was announced by the Department of National Defence. It was also announced that Commander O. C. Jones would take command of H.M.C.S. Skeena, and the western division on May 25.

Death Toll Heavy

Jobo, Philippine Islands.—Belated reports brought the number of persons killed on the Island of Jobo by the recent typhoon to at least 65. It is feared that many others are dead. The authorities estimated that 65,000 were rendered homeless.

Indians Getting Franchise

Many Being Recognized As Entitled To Full Citizenship

Ottawa, Ont.—The enfranchisement of Indians is proceeding with individual receiving full citizenship by order-in-council as superintendents warrant. Hon. T. G. Murphy, superintendent-general of Indian Affairs, told Dr. Peter McGibbon (Cons., Muskoka), in the House of Commons. Dr. McGibbon said in his constituency there were two bands of Indians, to whose intelligence and industry he paid high tribute. They wanted full citizenship, and Dr. McGibbon felt they ought to have it.

Churchill Insurance Rates

Effort To Be Made To Secure Lower Rates On Grain Shipments

Ottawa, Ont.—Every effort is being made to secure insurance rates that will encourage grain shippers to use the new terminal facilities at Churchill on Hudson Bay, Hon. C. H. Roblin, secretary of state, advised the House in answer to questions.

The Imperial shipping board in England secured a reduction in the rate in 1931. Mr. Cahan said, and there were hopes of further reductions in the near future.

GRAIN SHIPMENTS REPORTED FOR RUSSIAN POINTS

Vancouver, B.C.—The Vancouver Sun publishes the following:

"Coming as the most significant development in the Vancouver grain season, confirmation was secured of the sale of 1,500,000 bushels of grain for shipment to Russia from this port."

"Five vessels have been chartered to carry it to Vladivostok. The 'Castlemoor,' now loading here, is one of the others of four have not been disclosed."

"With Russia, three months ago regarded as the greatest menace to other wheat exporting countries, now back in world markets as a buyer, Vancouver grain men believed possibly 10,000,000 bushels of wheat would move through Vancouver to Siberia in the next few months."

"The 40,000 tons of grain going out on these five ships to a consuming channel undreamed of six weeks ago are generally understood to be supplies for Russian troops assembled in Siberia since the Manchurian border trouble with Japan."

"Not a great deal is known about the shipments since most of the wheat was negotiated in London. The London office of Kerr, Milford, and Company arranged four of the cargoes, it is understood."

"Two of the ships to carry the wheat were fixed in London, and the other three are slated to have been secured through the Canadian Transport Company of Vancouver."

"While the requirements of the Russian military forces in Siberia are considered the chief cause of the Canadian orders, the underlying reason for the shipments is believed to be new famine conditions in the Volga section of Russia."

DREAMS RECORD

C. W. A. Scott, British fisher, who has just set a new record for the flight from England to Australia. Scott's time for the 13,187 miles was eight days, thirteen hours and 53 minutes.

Defendants Are Freed

One Hour Sentence Is Imposed In Connection With Massie Conviction

Honolulu.—Governor Lawrence M. Judd freed the four defendants of the famous Massie murder trial one hour after they had been sentenced to 10 years at hard labor at Oahu prison. Sentence was passed in a surprise move on Lieut. Thomas H. Massie, his mother-in-law, Mrs. Granville Fortescue, and the two seamen, E. J. Lord and Albert O. Jones.

Their hour of confinement was spent in the nominal custody of the sheriff at Iolani Palace, across the street from the judicial building where for several weeks they battled unsuccessfully for freedom on charges of slaying Joseph Kahahawai, asserted attacker of Mrs. Massie.

Governor Judd, in commuting the sentence to one hour, merely said he was acting on a petition of the four defendants in which their counsel joined and was commuting the sentence to one hour.

Protests Against Use Of American Ports

Maritime Senator Thinks Route For Canadian Grain Should Be Changed

Toronto, Ont.—Senator W. H. Dennis, of Halifax, told an interviewer it was "difficult for the people of the Maritimes to find justification for shipment of millions of bushels of Canadian grain through United States Atlantic ports."

He said United States railwaymen and waterfront workers were being provided employment handling Canadian grain while "the great Atlantic ports of Halifax and Saint John were idle as regards Canadian grain traffic."

Had Money In Bank

Hamilton, Ont.—Buried as a pauper recently, Obadiah Markle had \$14,000 in the bank. Markle died in a rooming house, and his landlady recently found a bank book bearing a record of deposits. Investigation proved the money was actually there.

Prepare For Conference

Alberta Arranging For Suggestions To Present To Imperial Parley

Edmonton, Alberta.—First steps toward preparing an Alberta statement for submission to the Imperial Conference in Ottawa next July are now being taken, it was announced by Premier Brownlee. As a preliminary step letters are being sent to organizations representing the economic interests in the province, in which they are invited to forward any suggestions they may have to offer.

It is expected that the Dominion Government will extend an invitation to the provinces to submit suggestions as to the position to be taken by Canadian interests at the conference.

The Alberta Government will also participate in a joint conference to which the Saskatchewan Government has invited its two neighboring provinces and which will be held about June 8. An exchange of views in preparation for the Ottawa conference will be the purpose of this interprovincial meeting, but Mr. Brownlee points out that it may not be found desirable to make a joint representation, inasmuch as the interests and resource of this province are much more varied than those of the other two provinces.

Curtail Waste Of Gas

Steps Are Taken To Cut Out Gas Production In Turner Valley

Calgary, Alberta.—Turner Valley gas conservation board, formed by the government to curtail the waste of gas in Turner Valley gas field, announced that orders would be issued immediately requiring oil companies to cut down gas production. The board aims to lower production to 200,000,000 cubic feet daily in an effort to prolong the life of the gas fields.

It is understood oil companies will be informed that they have 48 hours to reduce their gas yield to conform with the board's objective. It is expected gas production will be curtailed greatly and most of the waste gas flares at the Turner Valley Wells practically extinguished.

The board members have elected A. A. Carpenter chairman. Other members of the board are John McLeish, of the Department of Mines, Ottawa, and Dr. B. C. Wallace, president of the University of Alberta.

BILL IS DRAFTED TO DEAL WITH UNEMPLOYMENT

Ottawa, Ont.—The House of Commons took the first step to clothe the government with wide powers to combat unemployment. A bill was given first reading which would confer all blanket power on the ministry until the end of the fiscal year next March. Debate on the resolution which prefaced the introduction of the bill was desultory.

Under the terms of the bill, which may meet more concerted opposition in its later stages, the government would possess power to negotiate agreements with the provinces, grant financial assistance to them and take steps "to protect the credit and financial position of the Dominion or any province." Money might be loaned to public or private undertakings. One clause of the bill would enable the government to "assist in defraying the cost of the sale and distribution of the products of the field, farm, forest, sea, river and mines," and this has given rise to speculation concerning a bounty system on the products of some primary industries.

The bill contained no limit on the money that might be expended by the Dominion. The back-to-the-land movement, if encouraged by the government should not be confined to crown lands, said W. W. Kennedy, (Cons., Winnipeg South Centre). He knew of many good farms which had been returned to the municipalities for various reasons, and it was to these farms already partially cultivated and equipped that the movement should be directed.

Hon. W. R. Motherwell (Lib., Melville), of Saskatchewan had for many years, before the three successive crop failures in certain parts, produced more wheat than all the rest of the Dominion together. In connection with the five-cent bonus on wheat a request had been made to the government to bid said, for an acreage bonus of \$1 per acre of seeded acreage. Later on, Mr. Motherwell suggested, the government might announce its attitude towards the request for an acreage bonus.

NUDE PARADERS GIVEN 3 YEAR TERMS IN JAIL

Nelson, B.C.—Sentences totalling 354 years were handed out by Magistrate John Carmel to 84 Doukhobor men and 34 Doukhobor women, members of the Sons of Freedom sect, following their conviction in police court here of parading in the nude in public at Thrusa. In each case a term of three years in the penitentiary was imposed. All admitted their guilt. The 118 accused were heard and sentenced in 120 minutes. The men and women were arrested after baiting the police for 45 minutes.

Pete Malloff, leader of the element, took his sentence with a smile after admitting appearing in the nude, walked to his cell and with a smile said, "I thank you." There was little trouble with the men, but the women in some cases protested their sentences, declaring they had stripped but were praying or celebrating.

The convicted men will be sent to New Westminster penitentiary to serve their sentences, and the women to Kingston, Ont.

Hardly had Hon. R. H. Pooley, Attorney-General, who came here from Victoria to warn Doukhobors against further violations of the law in staging nude parades, concluded his ultimatum to the Sons of Freedom at Thrusa, that they must obey the law or go to jail, when five or six women members of the sect disrobed and paraded defiantly before the attorney-general and his party. No arrests were made. Other women of the group demanded to be taken to jail to join their husbands, brothers and sisters. These were the only untoward incidents in the visit of Mr. Pooley to the district.

Passed Both Houses

Royal Assent Is Given To Number Of Bills

Ottawa, Ont.—Chief Justice Anglin, as Deputy to the Governor-General gave royal assent in the senate to a number of bills which had passed both houses. These bills include the following: The Canada of Freedom act, to amend the petroleum and naphtha inspection act; respecting debts due to the crown; to amend the opium and narcotic drugs act; 1929; to amend the Yukon quartz mining act; respecting the Canada of Freedom act; to amend the petroleum and naphtha inspection act; to incorporate the Lake of the Woods International Bridge Company.

Protest Telephone Tax

Ontario Independent Telephone Companies Interview Premier Henry
Ottawa, Ont.—Representatives of Ontario independent telephone companies interviewed Premier Henry, to petition against payment by them of Dominion tax on long-distance telephone calls. The delegates argued that their companies were provincial companies, operating under provincial charter, and therefore were not legally under the Dominion Government tax law.

Premier Henry requested Hon. W. H. Price, Attorney-General, to submit a ruling in the case.

Honored By Canadian Press

Presentation Made To John Scott At Toronto Meeting

Toronto, Ont.—Members of the Canadian Press honored John Scott, managing director of the Toronto Mail and Empire, in recognition of his services as president of the National Co-Operative News Service from 1929 to 1931. During his presidency a system of automatic telegraph printers was introduced from coast to coast.

Mr. Scott was presented with a gold cigarette case by the president, M. E. Nichols, vice-president and managing director of the Winnipeg Tribune.

Will Not Modify Bill

Dublin, Irish Free State.—The Republican Government of the Irish Free State effectively put down two opposition amendments which would have modified its bill to abolish the oath of allegiance to the British crown as a requisite to tenure of public office.

Will Use Regular Service

London, England.—The British delegation to the Imperial Conference at Ottawa will travel by the normal passenger service across the Atlantic and not in a vessel of the Royal Navy. This was the reply in the House of Commons to a query by Thomas Grimthorpe, Labor member.

Here are two of the first pictures to be made of the new German navy built to replace the Imperial Navy which was scuttled at Scapa Flow, Scotland, after surrender to the British. Sailors of the cruiser Königsberg are shown at anti-aircraft gunnery practice, during recent manoeuvres in the Baltic Sea. Note that the men are equipped with the latest type gas masks. Inset shows some of the ships of the fleet in line.
